---

### SUMMARY

---

Motivated and detail-oriented MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in developing RESTful APIs, responsive UI components, and integrating modern tools and technologies. Passionate about writing clean, scalable code and delivering high-performance web solutions.

### PROFESSIONAL EXPERIENCE

---

#### Frontend Developer at Zephy Solutions

July 2024 - Present

- Developed responsive and user-friendly web interfaces using React.js.
- Collaborated with backend developers and designers to implement seamless UI/UX.
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Utilized REST APIs to fetch and display dynamic content.

### SKILLS

---

React.js  
MongoDB

Next.js  
Node.js

JavaScript  
Express.js

### PROJECTS

---

#### Golobe – Hotel Booking App

Full-stack hotel booking application built using the MERN stack. Implemented user authentication, room listings, and booking flow with a fully functional backend and responsive frontend.

#### Tasky – Task Management App

A task management web app built with React and Firebase. Features include real-time task updates, authentication, and a clean, responsive UI for daily productivity.

#### AI App Landing Page

Responsive and modern landing page for an AI-based app, built with React and JavaScript. Focused on performance, animations, and mobile-first design principles.

### EDUCATION

---

#### Bachelor of Computer Science

University of Agriculture Faisalabad

September 2024 - Present
